

**CHETTINAD COLLEGE OF ENGINEERING & TECHNOLOGY, KARUR**

**RESEARCH & DEVELOPMENT CELL**

**IN ASSOCIATION WITH IPR CELL**

**WORKSHOP ON “HOW TO WRITE A RESEARCH ARTICLE IN MINIMUM DURATION USING SOFTWARE TOOLS”**

**Resource Person: Dr.M.Chandrasekar**

**Assistant Professor/MECH**

**Date & Time: 29.11.2022 - 10.30 AM**

**Venue: CSE LAB I & II CNCET, Karur.**

On 29.11.22, Dr.M.Chandrasekar, Assistant Professor, Department of Mechanical Engineering gave insights on the topic “How to write a research article in minimum duration using software tools”. He explained various online software like Mendeley, Elseviner, LaTeX and Publons that help the faculty members to implement and form the layout and graphs. The workshop equipped participants with practical skills and tools for expeditious research article writing. And also Focused on leveraging software tools, the session sought to streamline the writing process, enhance efficiency, and provide valuable insights for effective scholarly communication. The practical, hands-on session allowed participants to explore and practice using the introduced software tools. Dr.M.Chandrasekar provided guidance on real-time application, encouraging active participation. The workshop concluded with an engaging Q&A session. Participants shared experiences, sought clarification on specific tools, and engaged in interactive discussions on effective research article writing.
