

CHETTINAD COLLEGE OF ENGINEERING & TECHNOLOGY, KARUR
CYBER CRIME CELL
REPORT ON CYBER SECURITY AWARENESS PROGRAMME FOR FIRST-YEAR
ENGINEERING STUDENTS

Chief Guests : Mr. K.KAVIARASAN
Assistant Professor,
Department of Information Technology,
Chettinad College of Engineering & Technology, Karur

Date & Time : 27.01.2026 – 11.00 AM

Venue : A Block Seminar Hall

The Cyber Crime Cell of Chettinad College of Engineering & Technology organized a **Cyber Security Awareness Programme for Engineering Students** on **27.01.2026 at 11:00 AM** in the **A Block Seminar Hall**. The programme was conducted with the objective of **empowering and educating first-year engineering students**, who are increasingly active on social media platforms such as **Instagram, Facebook and WhatsApp**, with essential cyber security knowledge and practical skills to ensure safe and responsible online behavior.

The programme was handled by **Mr. K. Kaviarasan, Assistant Professor, Department of Information Technology, Chettinad College of Engineering & Technology, Karur**, who served as the **Resource Person**. He delivered an engaging and informative session emphasizing the importance of cyber security for students entering the digital academic environment. The session covered key topics including common cyber threats, phishing attacks, social media misuse, password management, data privacy, protection of personal data and preventive measures against cyber fraud.

The Resource Person highlighted the risks associated with excessive and unsafe use of social media platforms and stressed the need for students to exercise caution while sharing personal information online. Real-life cybercrime examples were shared to help students recognize online scams, fake links, impersonation and fraudulent messages commonly encountered on social networking and messaging platforms

The interactive session encouraged students to actively participate, ask questions and share their experiences related to cyber security and social media usage. The programme enabled students to gain practical knowledge on identifying cyber risks, adopting preventive strategies, practicing responsible digital behavior, and responding appropriately to cyber incidents

The programme concluded with a vote of thanks, expressing gratitude to the Resource Person, the Management and all the student participants for their enthusiastic involvement.
